

THREE PHASE GENERAL SERVICE

APPLICABILITY

This schedule is applicable to two or three phase service of a single character supplied at one point of delivery used for commercial, small industrial, and other uses for which no specific rate schedule is provided. Service under this schedule is limited to capacity not in excess of 50 kW. If the demand exceeds 50 kW for three (3) successive months, the applicable schedule will then apply. This schedule is not applicable to temporary, breakdown, standby, supplementary, resale or shared service. Customers having their homes on the same premises with their business establishment may include both the home and the business on the same meter and be billed under this schedule.

CHARACTER OF SERVICE

Three phase, alternating current, approximately 60 Hertz at available voltage.

MONTHLY RATE

Customer Charge	\$60.17 per month effective January 2025 through December 2025 \$65.00 per month effective January 2026 through December 2026 \$70.00 per month effective January 2027 through December 2027 \$75.00 per month effective January 2028
Demand Charge	\$7.50 per kW effective January 2025
Energy Charge	11.236¢ per kWh effective January 2025 through December 2025 11.336¢ per kWh effective January 2026 through December 2026 11.436¢ per kWh effective January 2027 through December 2027 11.536¢ per kWh effective January 2028

DETERMINATION OF BILLING DEMAND

The billing demand shall be determined by measurement and shall be the highest demand indicated during any 15-minute period during the billing period.

MINIMUM MONTHLY CHARGE

The minimum monthly charge under the above rate shall be the Customer Charge plus the Demand Charge.

POWER COST ADJUSTMENT

The above rate will be increased or decreased in accordance with Schedule PCA-25, as it currently exists or may be amended.

POWER FACTOR ADJUSTMENT

If the power factor for the month (determined at the Cooperative's option by permanent measurement or by test of not less than 30 minutes duration under conditions which the Cooperative determines to be normal) is less than ninety-five percent (95%) at the point of delivery, the Billing Demand will be increased by multiplying by 95% and dividing by the power factor expressed in percent.

Jeanne E. Murphy

THREE PHASE GENERAL SERVICE
(Continued)

CONDITIONS OF SERVICE

1. Motors having a rated capacity in excess of ten horsepower (10 HP) must be three phase, unless soft start or written pole motors approved by the Cooperative.
2. Service is accepted for a period of not less than one (1) year, unless customer's load changes, thereby requiring reclassification to another schedule.
3. Service hereunder is subject to the Cooperative's Rules and Regulations as approved by the Cooperative's Board of Trustees.
