Building Code and Inspector Information

The Small Generating Facility has been installed and inspected in compliance with the local building/electrical code of (if applicable): _____

PLEASE ATTACH SIGNED ELECTRICAL INSPECTION

Inspector Information

If local codes do not require an electrical inspection, an inspection must be performed by a Professional Engineer or electrician licensed in the state of Kansas. **Approval to energize the small generating facility in parallel with FreeState’s system will not be granted until the Member’s facility has been inspected and approved by a local government inspector, licensed electrician, or Professional Engineer, as applicable.**

PLEASE ATTACH SIGNED ELECTRICIAN’S LICENSE, IF INSPECTED BY AN ELECTRICIAN.

I certify that the installation complies with all applicable codes and regulations, including, but not limited to, the National Electric Code (NEC), National Electric Safety Code (NESC), IEEE 929, and IEEE 1547.

In the State of Kansas I am a licensed: Engineer Electrician (attach license)

License Number: _____

Printed Name of Inspector: _____

Signature of Inspector: _____ Date: _____
